CyQ (or Cy5Q or Cy7Q): These products are covered under US patent number 6,828,116 and equivalent patents and patent applications in other countries in the name of GE Healthcare UK Limited.

CytoCy5S: The use of this product in an NTR gene reporter assay is the subject of US patent number 7,579,140 in the name of GE Healthcare UK Limited.

CypHer5E: This product or portions thereof is manufactured under license from Carnegie Mellon University and is covered by US patent number 7,615,646.

Cy and CyDye are trademarks of General Electric Company or one of its subsidiaries.

The purchase of CyDye products includes a limited license to use the CyDye products for internal research and development but not for any commercial purposes. A license to use the Cy and CyDye trademarks for commercial purposes is subject to a separate license agreement with GE Healthcare. Commercial use shall include:

1. Sale, lease, license or other transfer of the material or any material derived or produced from it.
2. Sale, lease, license or other grant of rights to use this material or any material derived or produced from it.
3. Use of this material to perform services for a fee for third parties, including contract research and drug screening.

If you require a commercial license to use the Cy and CyDye trademarks please contact LSlicensing@ge.com.
